Showcase description

The typography is a bianchini whose facilities are guaranteed by constant service, calibration and verification, to obtain a large capacity and high quality printed product. The presence of skilled employees, motivated and updated constantly evolving know-how, continuous research of new printing technologies make the structure highly competitiva. Mettiamo available to our clients expertise and experience to give the highest guarantee of quality and professionalism. We offer a complete service from the input of text to page layout, editing and design to the colors of the images. This service will provide both the customer who orders the direct work, and advertising agencies that act as intermediary with the customer. From sketches to finished product, each work follows a path that guarantees the customer operational quality and precision, thanks to the most advanced technologies. Any commercial publication and editorial is more pleasant with beautiful photographs and we are aware of this and therefore we are equipped with scanners of the most modern and sophisticated. All the editing and assembly operations are performed inside.
