Showcase description

I am energetic, creative and passionate about advertising and I have a great desire to become a good specialist in this field. I always try to do something more, because I think only so I can improve even more. I also believe that advertising must not only be creative but also logical and well-thought-up and perform most important functions for advertising - selling. So my goal is to make the advertising that is efficient, creative and of high quality. Three years of education in the field of design help me To achieve high-quality of advertising and put into action almost all my idea. To make efficient and creative advertising I am receiving education in the field of advertising and imagiology. I also always try particepare in different advertising competitions. I have 2 years experience as a freelancer. I design brochures, flyers, business cards, advertising illustrations and posters. I work with such programmes as Photoshop CS5, Illustrator and InDesign CS5. And I know 5 languages: English, Italian, Russian, Estonian and German.
