## Showcase description

&vent is a company which takes care of your desires with all the experience of a team full of competences which start from good taste for scenic-artistic component to the efficiency of technology, in order to connect the elegance of wedding to the glamour of perfect lights and sounds. This way, we grantee to our customers a single point of contact with great attention and professionalism in each field. Quality and Technology at the highest level. We will follow the entire cycle of life of the event, from the planning and preliminary design with free on-the-spot investigation, consulting and choice location service, transportation, assembly and installation. In each phase, the company offers the opportunity to work in complete autonomy or in collaboration with the customers, in order to find the best solution in terms of personal needs and aesthetic. &vent provides its customers with a product catalog of great design and quality to offer elegance, comfort and safety. The rent includes: gazebo, furnitures, large covers, bar counters, spectacular lighting, projectors, audio/video, and the latest trend in terms of style: bright furnitures for indoor and outdoor, tables, chairs, stars and spheres and more. The philosophy of attention to detail starts with the great respect and punctuality in delivery, and continues organizing logistics of event, providing assistance in location but also the total absence of problems and unforeseen events.
