Years of Experience: 5-10
Employment Search: Si
Internships Available: No

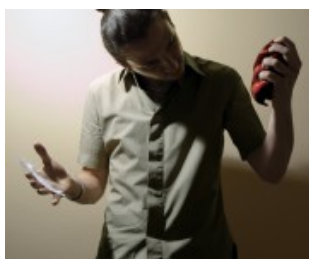

Showcase description

My art is mainly about portraiture and sometimes still life. A portrait is a story: it can be humans as well as objects. I lived in London where I improved different visual languages: I mix and blend graphic, photography and words to open imagination. I'm available for fashion - bridal - magazine photography and private customers portraiture. For further informations please visit my websites or contact me via mail at martacostantino@gmail.com. Thanks. MAdd.
