Showcase description

Ramona Pepeгна Bianchini is an Italian illustrator. Before embarking on her career as an illustrator, she spent many years studying drawing and painting techniques. Although she loves art in general, such as music, cinema or writing, she prefers to express herself above all through illustration. Stroke and color communicate, and for this reason she prefers to combine them in a different way in each work, to find the most suitable language. Her main sources of inspiration are nature, philosophy and the dream world.
