Internships Available: No

Showcase description

With my car I like to capture every moment that will become unrepeatable. My great passion leads me to observe everything that surrounds me where the pose of my gaze I love to capture that detail of life. I am fascinated by the colors of nature, the chaos of the subways, the expressions of people from love in all its forms and everything that manages to thrill me in its simplicity. I am an optimist, I love traveling and it is a pleasure to tell my shots with my shots that I define a mixture of details, emotions, panoramas and creativity.
