Employment Search: Si
Internships Available: No

Showcase description

Mirko Oddone, born in 1994, resident in Milan and practically passionate about digital art ... always. I try to tell the story and ideas of large or small brands by offering digital services such as web design strategies, digital marketing, social media marketing, development and creation of websites and e-commerce sites. I have developed projects all united by a great and single purpose: to promote a company or a product. Over time I realized that the only way to fully achieve this goal is to obtain a final product that transmits professionalism and enthusiasm in all its aspects. No detail should be left to chance; from the images, to the proportions, to the fonts, to the structure, to the colors, to the way of displaying the contents. Everything must contribute to making the User Experience as complete and satisfying as possible. For me it comes to perfection at the precise moment when landing on a new website you realize that it is a real cool! In short, as you will have understood my specialty is to create the design and structure of a website in a way to associate a personality and a specific character to the brand in question. mirkooddone@outlook.it
