Employment Search: Si

Internships Available: No

Showcase description

Since 2018, I have been working as a freelance post producer at B612 Studio, where I have specialized in post-production and CGI, contributing to projects ranging from advertising to digital production. I have also collaborated with Synapsy and international clients such as Sharp Shirter USA. Currently, I am focused on exploring artificial intelligence and working as a prompt artist, aiming to merge traditional art with the new possibilities offered by digital creativity.
